

Professor A. D. C. (Tony) Macknight, MD, PhD, FRSNZ was Wolf Harris Professor of Physiology at the University of Otago till he retired in 2002. Since then he has worked as Director of Education at ADInstruments, a company he co-founded with his son in 1987.

His research interests were in cell volume regulation and epithelial transport and he has published over 100 original papers, review articles and book chapters.

He has a long involvement in teaching and learning, playing a major role in Curriculum Development over many years at the Otago University Medical School. In 2015, he gave the Claude Bernard Lecture at EB.

He is presently working on developing active learning material for a cloud-based interactive learning platform.
